

J-STAR Research Visitor Health Screening Questionnaire and Requirements

The safety of our employees, families and visitors remains an overriding priority for J-STAR Research. As the coronavirus disease 2019 (COVID-19) outbreak continues to evolve and spreads globally, J-STAR is monitoring the situation closely and will periodically update company guidance based on current recommendations from the Center for Disease Control, OSHA and the State of New Jersey.

To prevent the spread of COVID-19 and reduce the potential risk of exposure to our employees and visitors, we are conducting a simple screening questionnaire. Your participation is important to help us take precautionary measures to protect you and everyone in this building. Thank you for your time.

	All visitors must wear an N95 re	espirator for the entire	visit to a J-STAR Research	facility
